

World Leaders in Power Management Solutions

Uninterrupted Power for better quality of life

Dear Customer,

Power is your Business Life Line .The more you have the better for your business growth and productivity. And losing it may prove disastrous for your business. So, for **UNINTERRUPTED POWER SECURITY and PERFORMANCE**, preserve it with Delta's **ONLINE UPS SOLUTIONS**.

Manage your business efficiently with Delta UPS Solutions
Quality with reliability

N Series UPS
1 KVA to 3 KVA

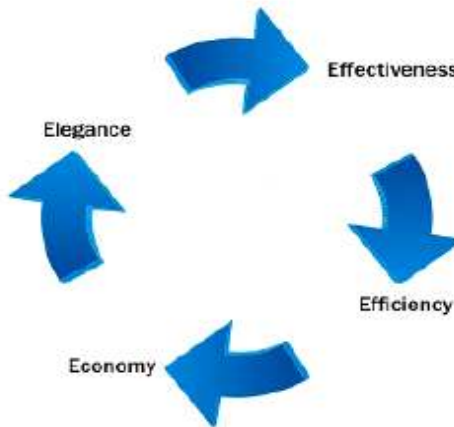

J Series UPS
1 KVA to 3 KVA

J Series UPS
7 KVA & 11 KVA

H Series UPS
15 KVA to 30 KVA

NT Series UPS 20 KVA to 3200 KVA

**We don't create environment,
but we preserve it!**

Delta Electronics has ranked number 1 in worldwide merchant power supply sales every year since 2003, including OEM AC-DC power supplies and telecom power supplies.

Micro Tech Consultants
March 2006

Established in 1971, 4.2 billion \$ Delta Group is the world's largest provider of switching power supplies, power management solutions, a major source for components, visual displays, industrial automation, networking products, and renewable energy. Headquartered in Taiwan, Delta Group is comprised of 31 manufacturing facilities totaling 8.8 million square feet in production space, 33 R&D centers, 76 sales offices and 94 logistics hubs with 60,000 employees in 120 countries around the world. Our key customers include brands like Sony, Thompson, Apple, Dell, Canon, Samsung, Intel, Sony, Siemens, HP, NEC, Fujitsu, Microsoft, LG, IBM, Gateway, and Sun micro systems, NEC, LG and many more.

As a strategic partner to the world's technology leaders, Delta Group has made a firm commitment to provide leading-edge product/system solutions at the lowest possible cost and highest quality.

Awards & Recognition

Every year Delta receives awards for outstanding quality and reliability – the number one factor for Delta's success since the beginning. We have earned recognition from Dell, HP, IBM, Intel, Microsoft, NEC, GE, Sony, and many others, which is the best indicator of our focus on quality. "Do things right the first time" remains our philosophy. Have Won more than 40 awards globally.

Product Research & Development

Our design process is based on Product Life Cycle Management (PLM) providing a stringent and accelerated design cycle while ensuring product quality and reliability. Engineering expertise backed by sophisticated test instruments and equipment gives Delta very strong design capability.

Quality Assurance

Delta is a QS-9000 accredited ISO-14001 and ISO-9001 certified manufacturer. Because of our outstanding performance in quality and reliability, we not only have received a "Certificate of Excellence" from the Ministry of Economic Affairs of Republic of China, but also have received numerous vendor awards from major customers. Our goal of zero defects and total customer satisfaction makes us the preferred supplier for many major companies in the electronics and information industries. At Delta, our quality is measured by our products.

Manufacturing

Delta's automation department is highly specialized with computerized state-of-the-art equipment. To further support regional demand and world-wide logistics support Delta group's also manufacture our product lines in Thailand Wellgrow and in newly build China Wujian by linking with our vertically integrated manufacturing system.

Global Operations

Our worldwide network of sales and technical support teams are available to customers in Asia, USA, and Europe. These teams are backed up by centrally located design-engineering centers that can diagnose problems in the design stage or the production stage.

About Delta India

Delta Energy Systems (India) Pvt. Ltd., DES India, incorporated in November 1996, is a 100% Subsidiary of DET International Holding Limited, part of the DELTA Group. DES, India has achieved recognition of being the market leader in the telecom power industry. DES India is responsible for developing business in South Asian Region and is also recognized as the "Centre for technical Excellence" for South Asia. Delta offers custom designed power Solutions foremost being the growing telecom applications. These states Of-the-art customized solutions are backed by a reliable and efficient service support. Delta India has impressive installation based with regional support centres all over India and SAARC region. Delta Energy Systems (India) Pvt. Ltd has been awarded the ISO 9001:2000, OHSAS 18001:1999 and ISO 14001:2004 certifications by Underwriters' Laboratories, USA, for Quality, Procedures and Environment management. The Other Product Range includes Online UPS Solutions and components.

Delta N Series UPS: 1 KVA to 3 KVA

True on-line double conversion, smart, light-weight plug-n-play system

Delta N Series UPS Snapshot

- Input Power Factor Correction up to unity
- Battery start function and auto restart
- Wide input voltage range
- Smart self-diagnosis function
- Compact size and light weight
- Extended backup time model available
- Full time lightning and surge protection
- Microprocessor built-in design Optional
- SNMP adapter for network management
- Extended battery pack available

Delta N Series Applications:

- Small Office Network Applications
- Network Devices: Hubs, Routers, Bridges
- Remote Telecommunications Units
- Office Telecommunications Systems
- Voice Mail and E-mail Servers
- Bio Medical Test and Diagnostic Equipments
- Engineering Network Servers
- Process Automation & Control Equipment
- Mission Critical LAN & WAN Servers etc..

Delta J Series UPS: 1 KVA to 3 KVA

Thinnest (3U), Lightest, Smallest UPS in the class

Delta J Series UPS Snapshot

- Microprocessor Controlled, High Frequency PWM Technology
- Input Power Factor Correction up to unity
- High Output Power Factor
- High AC to AC Efficiency
- Widest Input Voltage Range
- Lightning and Surge Protection
- SNMP Management Capability
- UPSentry® Software

Delta J Series Applications:

- Server Racks in Data Centers
- OB Vans for Satellite Equipments
- BTS -Base Transmission Station
- Corporate Office Network applications
- Mission Critical LAN & WAN Servers etc..
- Remote Telecommunications units
- Office Telecommunications Systems
- Voice Mail and E-Mail Servers
- Bio Medical Test and Diagnostic Equipments
- Process Automation & Control Equipment
- Media & Audio Visual Equipments

Delta J Series UPS: 7 KVA & 11 KVA

Thinnest (3U), Lightest, Smallest UPS in the class

Delta J Series UPS Snapshot

- Microprocessor Controlled, High Frequency PWM Technology
- Input Power Factor Correction up to unity
- High AC to AC Efficiency
- Lightning and Surge Protection
- Alarms & Indications
- Programmable Front Panel Interface
- Smart Economy Mode
- Dual Feed Input
- Remote Emergency Power Off (REPO)
- Extended battery runtime
- UPSentry® Network
- SNMP Management Capability
- Smallest Footprint

Delta J Series Applications:

- Server Racks in Data Centers
- OB Vans for Satellite Equipments
- BTS -Base Transmission Station
- Corporate Office Network applications
- Mission Critical LAN & WAN Servers etc..
- Remote Telecommunications units
- Office Telecommunications Systems
- Voice Mail and E-Mail Servers
- Bio Medical Test and Diagnostic Equipments
- Process Automation & Control Equipment
- Media & Audio Visual Equipments

H Series UPS-15 KVA to 30 KVA

Delta H Series UPS Snapshot

- Microprocessor Controlled
- Input Power Factor Correction
- High AC to AC Efficiency
- Lightning and Surge Protection
- Alarms & Indications
- Programmable Front Panel Interface
- Smart Economy Mode
- Dual Feed Input
- Remote Emergency Power Off (REPO)
- Extended battery
- UPSentry® Network
- SNMP Management Capability (optional)

Typical Applications:

- Critical Servers & Storage
- LAN, WAN & Network devices
- Telecommunication units
- Small & Medium Data centers
- Media & Broadcasting equipments
- Voice over IP
- Bio Medical Test and diagnostic equipments
- Engineering network servers
- Process automation & control equipment

www.deltaelectronicsindia.com

NT Series UPS-20 KVA to 3200 KVA

Typical Applications:

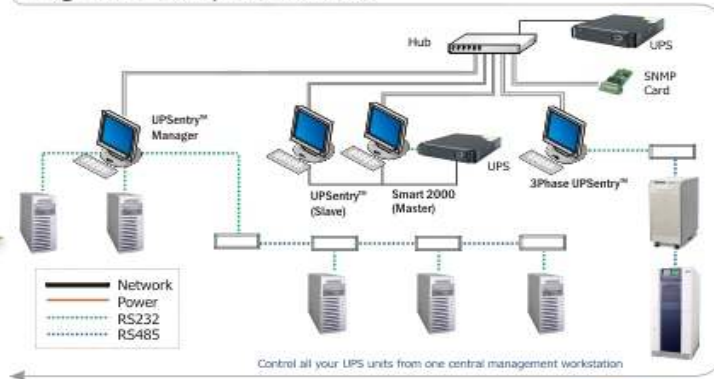

The NT Series provides a secure power infrastructure for a wide range of applications including:

- Healthcare equipments
- Financial applications where high-availability is imperative
- Commercial processing systems
- Industrial Automation
- Broadcasting and Telecommunications Systems
- Voice over IP
- Data Centers
- Engineering network servers
- Process automation & control equipment

Delta NT Series UPS Snapshot

- Parallel Expansion Up to 8 units (No Extra Card Needed) Hot-Standby Redundant Function The Smallest Size And Footprint Multi- Processor Digital Control And Modular
- Structure H-Class Galvanic Isolation Design And Multi-Speed Fan Control
- 100% Unbalanced And Computer Load Suitability Battery Temperature Compensation And Intelligent Charger Design
- Built-in SRAM Up to 500 Historical Records And Event Log
- Built-in Remote And Local EPO (Emergency Power Off) Switch
- Multi-Language Graphic LCD Display
- Manual And Schedule Battery Test Function
- Remote Monitoring Via Power
- Management Software

Integration in Computer Networks

Delta Care

Uninterrupted Power
for better quality of life

Delta offers the best customer support services to ensure highest Equipment Uptime for the UPS & DCPS systems across India for major telecom & IT customers. Delta through its top of the line technical expertise and strong Infrastructure offers a range of services ensuring highest product uptime for the mission critical applications.

- Delta Help desk 24x7 call in helpline
- Technical support center in India: Gurgaon, Mumbai, Bangalore & Kolkata covers all India locations
- Repair center and SWAP support
- Service support help line: On-Site & Online
- Technical support online, or personal testing technical resource center
- Training center with experienced trainers
- Contact points matrix with escalation procedure flow chart
- Logistics
- Various service plans
- Pre audits and post audit solutions

Delta Care

Why a Delta Online UPS ?

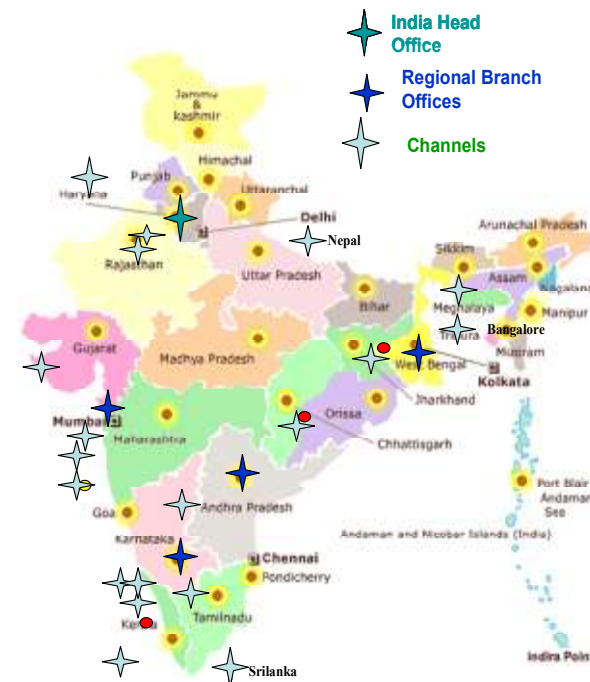

- Backed by years of Experience Delta Group's Power management expertise in 120 countries. Delta holds number one position in switching power supplies in the world.
- Wide range of Delta UPS Solutions from 1KVA to 3200KVA suited for all applications types.
- Delta's online double-conversion UPS system provides the highest quality power protection.
- Delta's online double-conversion UPS solutions are DG set compatible, as this will let you save your work/running machines and power down safely.
- Delta offers Redundant Systems Configurations
- UPSentry® Network shutdown software provides real-time updates on electrical parameters, with SNMP Management capability for remote monitoring and control through a web browser or a industry standard Network management system.
- Delta UPS systems has Personalized After sales services during warranty period and post warranty AMC contracts by Delta certified engineers spread all across the country.
